ORDERING TIMELINE:

We only install pavers once a year and that is for our Veteran's Day Event. So, in order to ensure a fall installation, all paver orders must be received and paid for by 01 August of each installation year. Ideally, we like to order at least 5 pavers to a production lot allowing us to reduce production costs. All orders are processed to a standard and uniform font and font size. The requested lettering is sandblasted into the pavers with color applied for contrast. **NOTE:** You can always visit the current OC Veterans Memorial site in order to see many examples of how this standard has been applied. **Spaces and punctuation each count as one character on the template.** However, punctuation is not normally needed.
